B 97 OFFICE SUITES

A new concept in premium turn-key office suites.

The only constant in business is change. On the second floor of B97, a high-quality office suite solution gives new and existing tenants the flexibility to onboard and grow quickly for new projects and new opportunities.

B97 Office Suites provides ready-to-use work environments that are not only beautiful but also intuitive, flexible, and functional.

Ready-to-go workspaces

The expansive floor space has been transformed into independent office suites with a shared entrance.

Each is designed to support focused work, client meetings and everyday functionality. They meet the needs of modern professionals and growing businesses looking for high-quality, ready-to-go office space in a prime location.

Each individual office can be customized to meet the Branding requirements of the occupier.

An inviting welcome experience

At the heart of the layout is a welcoming entrance and communal corridor that creates a shared experience.

Open, airy and ideal as informal meeting or workspace, the entrance features clean lines, natural materials and soft lighting to create an inviting first impression.

The result is a light-touch yet high-impact concept: smaller-scale workspaces with a collective sense of identity, balanced by privacy and autonomy.

The Designers

Maison Libre creates spatial experiences defined by clarity, balance, and material warmth.

Their work merges architectural logic with a refined aesthetic, resulting in timeless interiors that evoke calm and quiet confidence.

Founded by Isolde de Jonge and Belinda Kroese-Onrust, the B97 office suites embody Maison Libre's design ethos: purposeful spaces with understated elegance and thoughtful detail.
